

# Turner Designs

## What is the maximum length of deployment of the VideoRay Pro 4 / Turner Designs C3?

Deployment length is equal to the maximum for a Pro 4, which is approximately 600 meters (2,000 feet). The maximum depth is limited to the VideoRay Pro 4 rating of 300 meter (1,000 feet), but you can deploy farther horizontally.

Unique solution ID: #1087
